SAM FELDSTEIN

FRONT END DEVELOPER

DENVER, CO SAM@SAMFELDSTEIN.COM SAMFELDSTEIN.XYZ/CODE

AI WORKFLOW

Build with Claude Code, directing project architecture and reviewing every change. A custom library of Claude Code skills has a separate AI agent review each plan and then cold-review the code, and runs Lighthouse, automated accessibility scans, and a scripted VoiceOver walkthrough before deploy. Then test by hand, so no AI-generated code reaches production until a human has verified it.

SKILLS

HTML, CSS, JavaScript, Sass, Responsive design, Accessibility (WCAG), Cross-browser testing, Astro, WordPress, WooCommerce, Decap CMS, Claude Code, Figma, Git, GitHub, Cloudflare Workers, Netlify, Node.js

EXPERIENCE

Owner, Web Developer, Presswork Web Co.

October 2026 – Present | Denver, CO

- Build mobile-first, accessible client sites with Claude Code in plain HTML, CSS, and JavaScript, with contact forms, SEO, and analytics, and launch them on Cloudflare.
- Test each site across browsers and devices before launch.
- Offer ongoing care: hosting, backups, security updates, and content edits.

Freelance Web Developer

April 2024 – October 2026 | Denver, CO

- Built client sites with Astro and WordPress for a nonprofit, a dance ensemble, a pediatric therapy practice, and a horse arena.
- Set up Decap CMS so clients could update their own content without code, and wrote plain-language guides for doing it.
- Guided clients through launches and handled content updates after launch.

Ecommerce Manager, The Marfa Store

January 2022 – December 2023 | Marfa, TX

- Managed the Shopify storefront and inventory across 100+ SKUs.
- Kept product listings accurate and search-optimized, from titles and descriptions to prices and stock levels.

WordPress Developer, The Sentinel

November 2020 – November 2021 | Marfa, TX

- Launched an online storefront with WordPress and WooCommerce.
- Refined the store's user interface for accessibility and usability.
- Trained staff to manage content and products.

SELECTED PROJECTS

Job Search Tools

Automation | September 2026 – Present

Python tools and a JavaScript dashboard for job postings, built with Claude Code.

Presswork Web Co.

Website | October 2026

Multi-page business site in plain HTML, CSS, and JavaScript on Cloudflare Workers, with no framework. Node scripts check every page for broken links and accessibility errors before deploy.

ReGreen Big Bend

Website | February 2025 | Terlingua, TX

WordPress theme built from scratch: page templates and a contact form that sanitizes input.

Postoley Dance Ensemble

Website | April 2025 | Boulder, CO

Full redesign, rebuilt from WordPress in Astro; the client edits events in Decap CMS.

Prairie Rose Arena

Website | October 2026 | Elkhart, IA

Astro site with reusable components and content collections; the client edits events in Decap CMS, and a nightly rebuild drops past events.

VOLUNTEER

Wix Developer, Community Health and Equine Coalition

April 2024 – May 2024 | Galveston, TX

Improved the usability and accessibility of the nonprofit coalition's Wix site, and integrated a secure payment gateway.

EDUCATION

BA, English and Creative Writing, cum laude | University of Iowa | 2016

MFA, Screenwriting, withdrew | Chapman University | 2018
